## What you can do with Code with Google

Helping educators give their students confidence in CS, advance their skills, and prepare them for the future.

### Computer science opens up possibilities for every student

CS First is a cost-free computer science curriculum that anyone can teach. Designed for students ages 9-14 of all interests and experience levels, students learn collaboration and core computer science concepts as they create their own projects. Educators lead the way with easy-to-use lesson plans, tutorials, activities, and resources.

想再多「感覺」一下程式設計的魅力嗎？

# Sprite

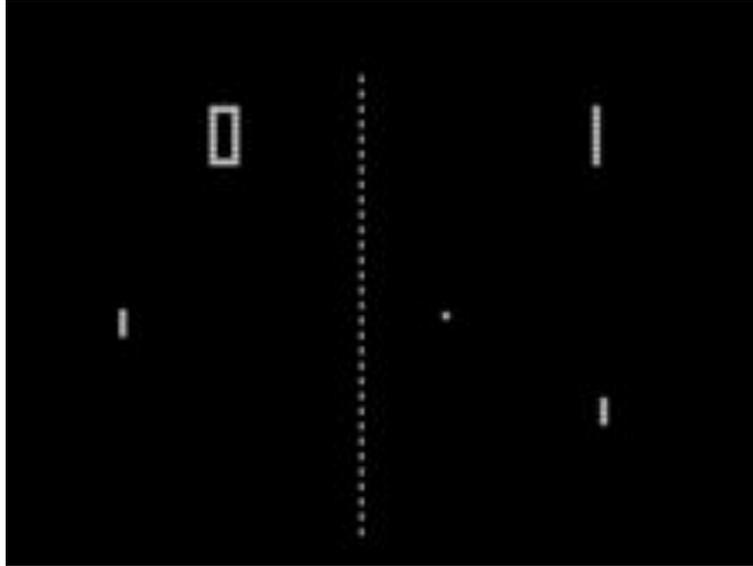

在Scratch 的世界裡, Sprite 被翻譯成角色。那甚麼是Sprite 呢?

這個就要稍微翻閱電玩的歷史...

在1970年代, 德州儀器(Texas Instruments)正在研發 9918(A) 影像處理器的時候, Danny Hillis首先使用 Sprite這個字用在描述在顯示器上移動的物件,就像鬼魂(ghost)與精靈(sprite)一般。
